Memoirs of Chemical Engineering Department, HBTI alumni

1. ALOK KUMAR MEHROTRA SENIOR PRESIDENT(OPERATIONS) SESHASAYEE PAPER AND BOARDS

Dear Dr. Rajesh Katiyar

“I am happy to note you are compiling memoirs of old HBTI alumni for Centenary Year Celebrations. At the outset, I extend warm greetings and congratulate HBTU faculty on the occasion of Centenary Year Celebrations (1921-2021), When I think of my Alma matter, I get glimpses of lovely architecture, high ceiling specious buildings, well ventilated class rooms and peaceful ambiance congenial to studies. We were fortunate to have an excellent faculty (Prof R P Singh, Mr. Saxena, Mr. Sherry, Mr. Vaidya, Mr. Srivastava to name a few) in Chemical Engineering department (1967-71). They were instrumental not only in imparting quality education but also mentored us for personality development. In particular, industrial visit tour was quite interesting and ignited urge in me to serve process industry. It is my pleasure to share with you that I am serving most noble process industry- Paper for close to five decades. Thanks to sound basics developed in HBTI, I could rise to very responsible position wherein I look after operation management of a large Paper mill of 500 TPD capacity.

I am attaching some old photographs and recognition received during my career”.

With best wishes

A K Mehrotra

2. Prof. Ranvir Aggarwal

Ph.D.,D.I.C.,C.Eng(Retired)

Dear Dr. Rajesh Katiyar,

I am very pleased to learn that our dear Alma Mater HBTI is completing 100 years of teaching,educating andforming our young students and helping them in their growth.I did not know till recently that HBTI is now HBTU.

Yes, I joined HBTI in 1958 as a student in their first and I understand the last Three year B.Sc. Chemical Engineeing program. I graduated in 1961.Dr.H.Trivedi was the Principal and Dr.J.B. Lal Head of the Department.

I lived in the Lake View Hostel ,which was ready for occupation in 1960,Earlier I lived at Labor Colony Hostel in Nawabgunj.

I have very fond memories of my stay there as a student, interestingly soon after my graduation ,I was offered a Lecturer position in the department which though,I accepted but resigned within a few months to join Ph.D program at I.I.T.,Bombay .I completed Ph.D. in 1965.

Later,I moved abroad, worked for Texaco Inc, a major petroleum Refinery.Subsequently, I entered academic life,worked in different Universities in Venezuela, USA and the U.K. I am now retired and live in Venezuela.

Yes, I played Cricket ,Badminton while at HBTI.

Unfortunately, after graduating I never returned to HBTI for a visit or for any other reason. I am sure it has grown beyond recognition.

I would very much like to participate in person the centenary celebration of the Institue which formed me a successful chemical enginneer.

The pandemic of Coronavirus , suspension of air flights,etc. will not let me.

To sum up I wish you.Dr. Rajesh and all the faculties,staff and students of HBTU a very fruitful, successful and memorable centenary celebrations.

Thank you for your invitation.
