Organized by
Department of Chemical Engineering
School of Chemical Technology
Harcourt Butler Technical University, Kanpur

The FDP organizing institution, "Harcourt Butler Technical University (HBTU) Kanpur" was upgraded into a University in year 2016 by the Government of Uttar Pradesh, India with a view for making it a leading Residential University to become a Centre of Excellence with focus on Research & Development and Incubation in the field of Engineering, Technology, Basic & Applied Sciences, Humanities, Social Science & Management, Architecture (proposed) and other professional courses. HBTU Kanpur aims to achieve excellence in higher education.

The FDP organizing department, the Department of Chemical Engineering, HBTU, Kanpur has built up a comprehensive research infrastructure with top-notch facilities for carrying cutting-edge teaching and research. This department is being ranked as one of the best in India.

WHO CAN REGISTER?

Only teachers of AICTE approved Technical Institutions.

About HBTU, Kanpur

Its roots date back to 1920 when the government of United Provinces established "Government Research Institute, Cawnpore", which was subsequently renamed as "Government Technological Institute" in 1921. Finally in 1928, it got the name "Harcourt Butler Technological Institute" by which we had been knowing it till August 2016. From September 2018 HBTU Kanpur got the status of HBTU Kanpur i.e. Harcourt Butler Technical University Kanpur, by Government of Uttar Pradesh. It was previously a Government Organization, but w.e.f. 25.03.1965, it was declared as an autonomous body and thereafter became University. The HBTU Kanpur is technical university, financially aided by UP Government. The admission for all B.Tech. courses are being done through JEE MAINS. As per the survey of "India Today", the overall ranking of HBTU Kanpur, considering various aspects, is 20 among the engineering colleges.

About Paint Technology Department

The Department of Paint Technology is one the oldest departments of HBTU Kanpur. It runs 4 years full time B.Tech. course with an intake of 30 and 2 years M.Tech. along with Ph. D. program. The department is well equipped with laboratory equipments of general testing and sophisticated instrumental testing along with spray application, resin manufacturing, paint & ink manufacturing etc. The department is government recognized for providing the certificate and test reports to various government and private agencies. The materials (paint, varnish, raw materials) are tested and evaluated. The consultancy and certificates are provided by experience faculty members of the department. The department is accredited by National Board of Accreditation (NSA) of All India Council for Technical Education (AICTE). The average placement of the department in last 10 years is 95%. The department is running Paint and Coating Technologists' Association (PACT) from more than 20 years. The aim of the association is to develop the brotherhood, sharing industrial knowledge amongst the paint technologists.

About Webinar

This Webinar is dedicated to one of the most important subjects for academic institutions. Pedagogy deals with the ways/means/art/science of teaching. With change in time and technological advancements, pedagogy has also observed significant changes in its dimensions. In order to update/refresh the existing teaching faculty and prospective teachers for the benefit of students/learners and colleges/universities and nation as a whole, this national webinar on Pedagogy has been planned.

is organizing

One Day National Webinar On

Online Education in Technical Institutions: A New Normal

(As a part of Centenary Year Celebration of HBTU, Kanpur)

About:

The COVID-19 pandemic has forced global shutdown of several activities, including educational activities, which has resulted in tremendous crisis-response migration of technical institutions with online learning, serving as the educational platform. This sudden shift away from the classroom teaching in many parts of the globe has some pros and cons. Some are pondering whether the adoption of online learning will continue to persist post-pandemic, and how such a shift would impact the worldwide education. The use of technologies in online teaching & learning and the video creation & editing will be the topics of discussion.

WHEN: AUGUST 27, 2021 (FRIDAY)
TIME: 11:00 A.M. TO 4:00 PM

A Multidisciplinary system

- The policy proposes to 'increase resource efficiency' and equip the students to become 'all-rounders' by way of making a cocktail of the 'ancient and modern' system with the 'multidisciplinary' tint attached to it.
- Moving towards multidisciplinary universities and colleges, with more HEIs across India that offer medium of instruction in local/Indian languages;

Fundamental Guiding Principles

- Emphasis on **conceptual understanding** rather than rote learning and learning-for-exams
- **Creativity and critical thinking** to encourage logical decision-making and innovation.
- **Ethics and human & Constitutional values** like empathy, respect for others, cleanliness, courtesy, democratic spirit, spirit of service, respect for public property, scientific temper, liberty, responsibility, pluralism, equality; and justice;
- **Promoting multilingualism** and the power of language in teaching and learning.
- **Life skills** such as communication, cooperation, teamwork, and resilience.
