Placement Statistics as per Eligibility Criteria

The placement shown under this sub-criteria is based on students placed through University Training and Placement Cell (T&P) in each year.

Under this sub-criteria the placement data is furnished by the University and the data for total students for calculating the percentage of placement is taken by the system based on the total strength of students in final years of all programs running in the University.

But, in this regard it is to be made clear that in our University the final year students opt following routes for building their future-

1. Placement through campus interviews
2. Placement through off-campus
3. Opt entrepreneurship/start-ups
4. Go for higher studies
5. Prepare for competitive examination.

Hence, it is clear from above, that due to nature of format, the University is able to submit the placement details of only those students who are placed through campus interviews conducted by T&P Cell of the University. Due to the placement criteria of the most recruiters, the T&P Cell of the University considers majorly students having more than 6.5 CGPA as eligible candidates for placement. Hence, based on this criterion the eligible students for five years areas follows:-

Year	2021-22	2020-21	2019-20	2018-19	2017-18
Total Job offers	523	299	283	270	257
Number of eligible students (CGPA > 6.5)	467	399	321	294	374
Percentage per year	111.9	74.93	88.16	91.83	68.71

Average percentage of job offers per year = **87.11%**

In case the eligible students are considered for placement, percentage of the last five years will be improved to **87.11%** in place **53.78%** as calculated in the NAAC portal of this criteria.
