ABOUT THE UNIVERSITY

Harcourt Butler Technical University, Kanpur (Formerly HBTU, Kanpur) has been established by the Government of Uttar Pradesh with a mandate to achieve excellence in technical education by pursuing high end research & development activities, focus on Innovation & Incubation, to further skill development through continuing education and quality education in the field of Engineering, Technology, Basic & Applied Sciences, Humanities & Social Science, Management and other professional courses.

ABOUT THE DEPARTMENT

Department of Computer Science & Engineering, one of the largest Department of the University is running B. Tech. Computer Science & Engineering, B. Tech. Information Technology, MCA and Ph.D. programmes in Computer Science & Engineering. The Department is known for producing the best quality software engineers who serve in leading companies in India and abroad.

ABOUT THE CONFERENCE

Many real-world problems are complex and very difficult to solve and they present a great challenge for the research communities. This is due to large and heavily constrained search spaces which make their modeling a very complex task. Although they have received a significant amount of attention from various research communities, there is still a quest for efficient and effective algorithms that are able to produce very good results within acceptable amount of time and can adapt themselves to the solution landscape changes.

National Conference on Intelligent Computing, Communication and Data Science primarily aims to promote the research, development and application of intelligent computing and communication techniques by providing a vibrant and effective forum to academicians, researchers, and the practicing engineers to share their work and thoughts.

CONFERENCE SCHEDULE

Last date of Paper Submission : October 20, 2018
Notification of Acceptance : November 05, 2018
Submission of Camera Ready Papers : November 12, 2018
Date of Conference : November 29-30, 2018

CALL FOR PAPERS

Papers having original research work are invited for the conference in the following topics of interest that include, but are not limited to:

- Intelligent/Adaptive Algorithms
- Artificial Intelligence and Expert Systems
- Automated Software Engineering
- Distributed and Parallel Processing
- Mobile Computing , E-commerce and E-governance
- Computer Networks and Distributed Systems
- High Performance Computing
- Human Computer Interaction
- Image Processing and Information Retrieval
- Soft Computing and Machine Learning
- Big Data, Data Analytics, Data Mining and Warehousing
- Cloud Computing
- Internet of Things and Smart Data
- Knowledge Data Engineering & Data Science
- Computational Intelligence
- Evolutionary Computing and Swarm Optimization

Accepted papers will be published in the conference proceedings having ISSN number.

PAPER SUBMISSION GUIDELINES

- Full Text Manuscripts (limited to 6-pages) without plagiarism should be submitted in IEEE format by one of the authors of the manuscript through E-mail to hbtunciccd2018@gmail.com in .doc/.docx file format.
